BASIC RECOMMENDATIONS:

- It's a night run, so it's **OBLIGATORY** to bring a light front or a torch. The circuit will only be illuminated by the full moon.
- **BRING YOUR OWN CUP** in order to try to generate as little waste as possible.
- Wear appropriate clothing and shoes. Do not wear new shoes the day of the race.
- Eat and drink carefully the day of the race to be able to arrive at the finish line well hydrated.
- Put Vaseline on the areas where you are sensitive to rubbing, under the arm, between the legs and on the breasts.
- Set your planned pace from the start, especially the first few kilometres, as it is very easy to get carried away and this wasted energy may be needed for the end of the race.
